

NOVEMBER 2008: Nazim Haji, Computer Support

Congratulations to **Nazim Haji**, Solid Ground's November 2008 Employee of the Month! The nominations received for Nazim all mention how friendly and accessible he is. Nazim has a reputation for being willing to go out of his way to solve any problem at any Solid Ground site. Computer knowledge is a valuable thing, and Nazim has tons of that commodity. Even when everyone seems to think that their problem is the most urgent, Nazim remains calm and ready to find solutions. He's amazingly able to *not* make people feel dumb or inadequate when they even ask the most basic of questions. Nazim is a huge asset to the entire Solid Ground community. Let's help keep Nazim happy by remembering to click on 'SAVE'!
